Target group

Managers, experts in human resource and organizational development units, quality representatives of public administrations who want to introduce and/or develop quality management in their own organization (entire administration, department etc.).

Goal

The CAF (Common Assessment Framework) is the quality management system for public administrations. In this webinar, we want to provide participants with practical and hands-on approaches to quality management with the new CAF 2020. CAF offers fast access to organizational assessment of public administrations and enables leadership to gain deep insights into status and improvement areas of their own organization.

The participants will learn how to use the methodology and analysis levels of CAF and apply to their own organization. Based on this approach change initiatives can be implemented quickly and result-oriented with CAF.

Main topics

1. Quality Management – Why?

- What means quality in public administrations?
- Added Value of quality management in public administrations.
- QM systems for public administrations at a glance.

2. CAF-2020 - Standard for Excellent Management in Public Administration

- The system of the new CAF model.
- The CAF methodology for continuous improvement - application and introduction in your own organization.
- Leading change with CAF – assess status and improvement areas of your own organization.

3. Implementing CAF in the organization

- Contribution of CAF to public administration reform?
- CAF Online.
- CAF Programme plan and implementation.
